PROFILE

Young Developer, I have experience in developing web interfaces using ReactJS and NodeJS. I am always looking to improve my knowledge, constantly studying, gaining experience and consequently becoming a better developer with each project.

SKILLS

PROGRAMMING LANGUAGES

ReactJS | React Native Expo | NextJS | Typescript | NodeJS | MongoDB | Javascript | SQL | MySQL | PostgreSQL | Zustand | Redux | ContextAPI | Styled Components | TailwindCSS | Sass | Bootstrap | LessCSS | CSS3 | HTML5

SOFTSKILLS AND COMPLEMENT:

- Code Versioning with Git and Gitflow
- Automated Testing: Experience in writing and maintaining automated tests using Jest, Vitest and Testing Library to ensure the quality and stability of the source code.
- Knowledge with Figma replications, layouts, and tools
- Agile methodologies: Kanban, Scrum, and XP
- Consistent, resilient and good interpersonal skills.
- Languages: English **[certified]** C1, Basic Spanish and Portuguese.

EXPERIENCE AND PROJECTS

Freelancer, Front-end Web Developer

- June 2023 – Present

I have developed and assembled websites, working closely with clients to meet their specific needs. I highlighted the importance of a strong brand in the digital environment, demonstrating how a consistent presence can positively influence consumers. Led clients in the development of digital identities, resulting in successful business.

Project: CodeDuo | codeduo.vercel.app

I developed a collaborative code editing platform with authentication functionalities and real-time coding rooms. CodeDuo allows users to connect to code rooms, share, edit projects, and collaborate with other developers. I implemented a secure authentication system with tokens and session management using cookies.

- Technologies used: ReactJS, Typescript, NodeJS, MongoDB, Express, Mongoose, Firebase, Socket.io, JWTToken, Bcrypt, React Hook Form, Zod, Redux Toolkit, React Router Dom, Axios, Monaco Editor, Styled Components;

Project: Lo-fi | lo-fi-music.vercel

My personal lo-fi music project. Offers a selection of 8 ambient sounds such as fire, footsteps, nature and more. It allows you to customize the background with different colors and includes a 25-minute Pomodoro timer to help you concentrate.

- Technologies used: ReactJS, Styled Components, CSS, HTML;

EDUCATION

Unicarioca University Center

(February 2022 - February 2025)

- Technologist in Systems Analysis and Development

EXTRACURRICULAR COURSES:

- Alura: HTML, CSS, Grid and Flexbox, responsiveness and accessibility
- Origamid: ReactJS, UI Design, Sass and Bootstrap;
- Udemy: React - The Complete Guide 2023 (incl. React Router & Redux) | The Ultimate MySQL Bootcamp: Go from SQL Beginner to Expert | Understanding TypeScript | The Complete Node.js Developer Course (3rd Edition)
